

Alina Soh Hwei Hin

+1 919 282 8588; alina.soh@duke.edu

EDUCATION

Duke University

Aug. 2026 - May 2030

- Major: Electrical and Computer Engineering
- Relevant Coursework: EGR 101, CS 201, MATH 218 D-2, ECON 101

Nanyang Technological University

Jan. 2025 - May 2025

- Introduction to Semiconductor Devices and Physics (Dual Enrollment); Achieved Distinction

EXPERIENCE

Program Associate, StartupX

Apr. 2026 - Jul. 2026

- Conducted startup and stakeholder research and supported outreach for the World AI Conference Pitching Competition, Korean Tourism Organisation Accelerator and other programmes by sourcing and contacting 1,000+ AI startups.
- Hosted and emceed four AI community events with 500+ participants and 20+ speakers from startups and VCs like Hustlefund and Antler.
- Led data management initiatives by cleaning 40,000+ historical CRM contacts on Attio and developing workflows using Zapier to streamline contact management.
- Supported business development initiatives by creating social media posts, email campaigns and sponsorship pitches.

Researcher, Nanyang Technological University

Mar. 2024 - Dec. 2024

- Conducted [economic modelling of a Pressure-Retarded Osmosis \(PRO\) plant](#).
- Developed an economic model for a 1 MW pressure-retarded osmosis (PRO) plant, calculating capital and operating expenditures across varying water flux and membrane power-density scenarios.
- Evaluated membrane innovations and alternative PRO configurations to identify strategies for improving energy efficiency and commercial viability. Analysed the relationship between membrane power density and leveled cost of electricity to assess feasibility & competitiveness with solar power.
- Achieved Silver in the Nanyang Research Program by Nanyang Technological University.

Head of Programmes, Project Liberi

Mar. 2024 - Sep. 2024

- Managed finances, developed event proposals, managed volunteer recruitment and logistics.
- YMCA Youth For Causes Public Outreach & Distinction Award. Raised S\$18.8k for New Life Stories (NLS) supporting children with incarcerated parents & mobilized 112 volunteers across 13 schools.
- Reached out to over 100K people via social media advocacy and over 5K people through Car Washes, Bake Sales, Movie Premiere and Merchandise Sales; Organised educational day camp for children with incarcerated parents.

LEADERSHIP AND OTHER ACTIVITIES

Executive Vice President (Treasurer), Outdoors Education Students Club

Jun. 2022 - Jun. 2025

- Managed S\$20K yearly budget: planned termly budgets, tracked finances, proposed budgets & liaised with vendors.
- Proposed & executed biweekly activities for 34 members including cycling, trekking, climbing, orienteering.
- Activities Coordinator of an inter-school outdoors forum for 80 people, In-Charge of Pretrials for selection of new members, Faculty leader & Exco of HOME@CT, organised outdoor activities for 2000 schoolmates.

PROJECTS

- LiDAR based obstacle avoidance robot: Designed and soldered circuit boards, 3D printed parts and coded firmware
- Educational Physics Toy: Designed a 3D printed flying propeller toy that taught basic physics concepts
- Arduino Alarm System: Built and programmed an Arduino-based alarm system using an ultrasonic sensor and buzzer
- PVC Catapult: Designed and constructed a PVC-pipe catapult

AWARDS

- A*STAR Science Award (Junior College) 2024 & 2025
- Singapore Chemistry League 2025 Silver Award

SKILLS

- Skills: Python, C, Java, Arduino, Onshape, Laser Cutting, Soldering, Microsoft Excel, Word, Powerpoint
